

Short-Term Rental Parking and Snow Storage Plan

A parking and snow storage plan illustrating the number and location of indoor and outdoor parking spaces to serve the short-term rental is required with every STR License application. This form and any required attachments may constitute a parking and snow storage plan.

A minimum number of parking spaces shall be provided in accordance with the parking requirements for the dwelling unit as established by the Steamboat Springs Community Development Code.

Overnight parking of vehicles outside of a garage shall:

- Not exceed six (6) vehicles; and
- Be located on an all-weather, drivable surface; and
- Not be located within a public right-of-way or emergency access easement.
