# ***INTRODUCTORY SECTION***

(This page left blank intentionally.)

June 13, 2025

To the City Council and Citizens of the City of Steamboat Springs:

State Law requires that all general-purpose local governments publish within 240 days of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the City of Steamboat Springs for the fiscal year ended December 31, 2024.

This report consists of management's representations concerning the finances of the City of Steamboat Springs. Consequently, management assumes full responsibility for the completeness and reliability of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Steamboat Springs has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Steamboat Springs' financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Steamboat Springs' comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Steamboat Springs' financial statements have been audited by Eide Bailly LLP, a firm of licensed certified public accountants. The objective of the independent audit was to provide reasonable assurance that the financial statements of the City of Steamboat Springs for the fiscal year ended December 31, 2024, are free of material misstatement. The independent audit was conducted in accordance with GAAS and Government Auditing Standards and involved professional judgment and skepticism in identifying and assessing risks to design audit procedures to include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Steamboat Springs' financial statements for the fiscal year ended December 31, 2024, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Steamboat Springs' MD&A can be found immediately following the Independent Auditor's Report.

### **General**

The City of Steamboat Springs was incorporated in 1900 as a municipal corporation and a statutory town under the constitution and laws of the State of Colorado until 1973, when the electors of the town, pursuant to the home rule provisions of Article XX of the State Constitution, adopted the original Charter of the City. The City is a "home rule" city and its Charter governs all local and municipal matters.

The Constitution of the State reserves to the City certain powers, including the power to issue, refund and liquidate municipal obligations and the power to assess property in the City for municipal taxation, and the power to levy and collect taxes on such property for municipal purposes.

The City encompasses over 6,500 acres and is located in the northwestern portion of the State at an altitude of 6,700 feet above sea level, on the western slope of the Rocky Mountains, 160 miles northwest of Denver. The City is the population center and county seat of Routt County, Colorado (the "County") with 13,300 residents. The City serves as the headquarters for Routt National Forest. Approximately half of the land in the County is public land, with approximately 40% in the Routt National Forest.

### **City Council and Administration**

The City operates under a council-manager form of government, whereby the City Council constitutes the City's legislative and governing body. The City Council consists of seven members, with two council members elected from each of the City's three districts and one member elected from the City at large. Each district council member is elected for a four-year term and the council member elected at large is elected for a two-year term. The City Council elects a chairperson who acts as the President of the City Council and serves at the pleasure of City Council for a two-year term. The President is the official head of the City for the purpose of presiding at all meetings of the City Council and executing legal instruments. The Council President is recognized as the head of the City government for all ceremonial and legal purposes.

The City Council appoints boards and commissions, the City Manager, the City Attorney, and the Municipal Judge. The City Manager is the administrative head of the government and is responsible for the administration and execution of all affairs of the City. The City Manager's duties include: enforcing the laws and ordinances of the City; hiring, suspension, and removal of City employees; preparing a proposed budget annually and submitting it to the City Council and administering the budget after its adoption; preparing and submitting to the City Council as of the end of the fiscal year a complete report on finances and administrative activities of the City for the preceding year; keeping the City Council advised of the financial condition of the City; establishing a system of accounting and auditing for the City which shall reflect, in accordance with generally accepted accounting principles, exercising supervision and control over all departments, and performing such duties as may be prescribed by the Charter, by ordinance or required by the City Council.

As a supplement to internal controls, the City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by City Council. The level of budgetary control at which expenditures cannot legally exceed the appropriated amount is established at the individual fund level. This means that management cannot overspend a fund budget without the approval of City Council.

The City provides its citizens with fire and police protection, emergency medical services, a general aviation airport, parks and recreation, golf course, rodeo arena, ski area, tennis facility, ice arena, parking and traffic management, judicial and legislative services, streets and highways, public works and improvements, planning and zoning, free transit system, cultural events and general administrative services. The City also provides for wastewater treatment and water and sewer distribution services.

The City operates on a calendar year basis. The City Manager is required to prepare and submit to the City Council not less than 75 days prior to the beginning of the fiscal year a budget and accompanying explanation. The budget must provide a complete financial plan of all City funds and activities for the ensuing fiscal year, contain a general summary of its contents, and show comparative figures for income and expenditures of the preceding fiscal year.

A public hearing on the proposed budget and proposed capital program is required to be held by the City Council before the final adoption. After the public hearing, the City Council may adopt the budget with or without amendment. The City Council must adopt the budget by ordinance on or before the first day of the new fiscal year. Adoption of the budget by the City Council constitutes appropriation of the amounts specified therein as expenditures from the funds indicated.

### **Local Economy**

The City of Steamboat Springs is a major tourist destination resort known across the country and world as a great place for skiing, biking and other winter and summer outdoor recreation. Tourism is a major revenue driver of many local businesses; however, the City continues to develop a diverse, year-round economy with a variety of strong industry sectors such as energy production and exploration, location-neutral businesses, outdoor recreation equipment and clothing, construction, and regional health care. As the population has grown in the past two decades, the economy continues to expand as residents enjoy a

wonderful place to live, work and play. The City serves as the regional economic center for Northwest Colorado as its largest city.

### **Relevant Financial Policies**

The City has a comprehensive set of financial policies. These policies require a Stabilization Reserve equal to 25% of the prior year's General Fund expenditures be held in unassigned fund balance. The Stabilization Reserve is designated for budget stabilization during revenue downturns. The financial policies also include budget policies, revenue policies, investment policies, debt management policies, and a section pertaining to arbitrage compliance.

### **Long Term Financial Planning and Major Initiatives**

The City prepares a six-year capital improvement plan each year that serves as its planning document to ensure that its facilities, equipment and infrastructure are well maintained and in safe operating condition. It is funded from a combination of dedicated taxes, grants, contributions, transfers from the General Fund and reserves. Taxes that are earmarked for capital improvements are the building use and excise taxes and a 1% franchise fee for under-grounding of utilities.

City Council established two-year goals in 2025. Those goals are as follows:

1. Affordable/Attainable Housing
  - Continue pursuit of Brown Ranch Annexation and attainable housing
  - Evaluate and adopt three pieces of legislation that create affordable and attainable housing
  - Secure 25 employee housing units for city employees
2. Transportation and Mobility
  - Pursue formation of the Regional Transportation Authority.
  - Complete Phase One of Core Trail West.
  - Maintain Hwy. 40 Average Daily Traffic (ADT) counts at 2024 levels.
  - Enhance transportation and mobility options for residents and visitors of Steamboat Springs.
  - Prioritize bike/ped/bus options over cars.
3. Fiscal Sustainability
  - Continue formation of Stormwater Utility.
  - Diversify revenue base by pursuing vacancy tax, lift tax, and impact fees
  - Pursue dedicated funding for SST
  - Evaluate city expenses
4. Environmental Sustainability
  - Operationalize and implement the Climate Action Plan (CAP) in City decisions (this includes water conservation).

## Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Steamboat Springs for its annual comprehensive financial report (ACFR) for the fiscal year ended December 31, 2023. This was the thirty-fifth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized annual comprehensive financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City believes the current report continues to conform to the Certificate of Achievement Program requirements and will submit this ACFR to the GFOA to determine eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the City's finance department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report.

A special thanks to you, the reader, for taking an interest in the City of Steamboat Springs.

Respectfully submitted,

---

Tom Leeson  
City Manager

## Independent Auditor's Report

To the City Council  
City of Steamboat Springs, Colorado

### Report on the Audit of the Financial Statements

#### *Opinion*

We have audited the financial statements of City of Steamboat Springs, Colorado (the City) which comprise the balance sheets as of December 31, 2024, and the related statements of operations, stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the City as of December 31, 2024 and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for one year after the date that the financial statements are available to be issued, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The individual fund financial statements and schedules, and Local Highway Finance Report are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information as referred to above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 12, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

*Eide Bailly LLP*

Denver, Colorado

June 12, 2025

## Management's Discussion and Analysis

As the financial management team of the City of Steamboat Springs, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here as well as the information in the letter of transmittal found earlier in this document.

### Financial Highlights

- The assets and deferred outflows of resources of the City of Steamboat Springs exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$401,593,225 (*net position*). Of this amount, \$106,162,675 represents unrestricted net position, which may be used to meet the government's ongoing obligations to citizens and creditors.
- The City of Steamboat Springs' total net position increased by \$46,709,838 from the prior year. \$31,782,542 of this increase is attributable to an increase in the City's investment in capital assets. This includes a significant investment in a new Fire Station, City Hall, Grit Dump (public works equipment washout facility), and a new employee housing facility located on the transit campus, intended to house seasonal transit employees.
- At the close of the current fiscal year, the City of Steamboat Springs' governmental funds reported a combined ending fund balance of \$113,662,854 which is an increase of \$5,079,419 from the prior year. The increase in fund balance at fiscal year-end is primarily due to general fund spending being less than was budgeted. Overall, general fund revenues were \$903,324 lower than budgeted and general fund expenditures were also lower than budget by \$6,093,322.
- At the end of the current fiscal year the unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund decreased by \$3,708,637 bringing it from \$27,398,880 to \$23,690,243. The unrestricted fund balance for the capital projects fund decreased by \$5,491,195 bringing it from \$51,363,626 to \$45,872,431. Both decreases are attributable to the commitment of fund balance to complete the major capital projects described above.
- The City of Steamboat Springs' total outstanding long-term debt and unamortized premium decreased by \$2,682,823, or 9%, during the current fiscal year, due to regular debt service payments along with minimal increases.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Steamboat Springs' basic financial statements. The City of Steamboat Springs' basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required and other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements.** The *government-wide financial statements* (pages 16-17 of this report) are designed to provide readers with a broad overview of the City of Steamboat Springs' finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Steamboat Springs' assets, liabilities, deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Steamboat Springs is improving or deteriorating.

The *statement of activities* presents information showing how the City of Steamboat Springs' net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid time off).

Both of the government-wide financial statements distinguish functions of the City of Steamboat Springs that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Steamboat Springs include general government, public safety, public works, transportation services, parks and recreation, planning and interest on long-term debt. The major business-type activities of the City of Steamboat Springs include water and wastewater utilities, an airport, and a golf course.

The government-wide financial statements include not only the City of Steamboat Springs itself (known as the *primary government*), but also the Local Marketing District, a legally separate entity, for which the City of Steamboat Springs is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. The Steamboat Springs Redevelopment Authority, although also legally separate, functions for all practical purposes as a department of the City of Steamboat Springs and therefore is included as an integral part of the primary government.

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Steamboat Springs, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Steamboat Springs can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Steamboat Springs maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital Projects Fund, Accommodations Tax Capital Projects Fund, the Steamboat Springs Redevelopment Authority, the Fire and EMS Tax Fund, and the Community Housing Fund and Short-Term Rental Tax Fund, all of which are considered major funds.

The City of Steamboat Springs adopts an annual appropriated budget for its governmental funds. A budgetary comparison statement has been provided for each of the governmental funds to demonstrate compliance with these budgets. The City of Steamboat Springs also adopts annual appropriated budgets for all its proprietary funds. Budgetary comparison statements have been provided for these funds in the Individual Fund Financial Statements and Schedules section to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements can be found on pages 18-21 of this report.

**Proprietary Funds.** The City of Steamboat Springs maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Steamboat Springs uses enterprise funds to account for its utility activities, its airport operation, and a golf course. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Steamboat Springs' various functions. The City of Steamboat Springs uses an internal service fund to account for its fleet of vehicles and major equipment. Because fleet services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 22-24 of this report.

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Steamboat Springs' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City collects a half-cent sales tax to be used for educational purposes and forwards these funds to the Steamboat Springs Education Fund, a private non-profit organization.

The basic custodial fund financial statements can be found on pages 25-26 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-71 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Steamboat Springs. Required supplementary information can be found on pages 73-86 of this report.

### **Government-wide Overall Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$401,593,225 at the close of the most recent fiscal year.

By far the largest portion of the City of Steamboat Springs' net position (62%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related outstanding debt used to acquire those assets. The City of Steamboat Springs uses these tangible capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Steamboat Springs' investment in its capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves are not expected to be used to liquidate these liabilities.

A portion of the City of Steamboat Springs' net position (11%) represents resources that are subject to external restrictions on how they may be used. The remaining net position (26%) is *Unrestricted net position* of \$106,162,675 which may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is reporting positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

### Governmental activities

During the current fiscal year, net position for governmental activities increased \$43,674,490 from the prior fiscal year for an ending balance of \$301,670,203. Some key highlights from the statement of activities during 2024 include the following items:

- Short term rental tax revenue increased by \$6,048,633 over the prior year because 2024 was the first full year of collections of the 9% tax that was phased in starting January 1, 2023. Spending has been limited to a couple of projects with the anticipation of the majority of the funds being utilized on infrastructure related to a potential annexation and housing project on the west end of Steamboat Springs (see further explanation in the Governmental Funds section below).
- Sales tax revenue increased by \$845,003 (2%) due to inflation.
- Capital grants and contributions revenue decreased by \$1,950,943 over the prior year, mostly due to an influx of federal grants for the new city hall building, other public works projects and transit projects in 2023.
- Operating grants and contributions revenue increased by \$779,108 over the prior year with a 24% increase in public safety, and smaller increases in most other governmental functions.
- Charges for services increased by \$508,103 over the prior year due to an increase in short-term rental licensing fees implemented in 2023, an increase in building permit revenue and also due to inflationary increases in most departments and funds.
- While total governmental revenues increased by \$8,126,657 total governmental expenses increased by \$8,467,173 over the prior year.

## Expenses and Program Revenues – Governmental Activities

## Revenues by Source – Governmental Activities

## Business-Type Activities

During the fiscal year business-type activities increased in net position \$3,035,348 from the prior fiscal year for an ending balance of \$99,923,022. Some key elements of this increase are as follows:

- The Utility Fund net position increased by \$2,507,464 comprised of a net loss before capital contributions of \$828,463, and capital contributions of \$3,541,168.
- The Golf Fund net position increased by \$394,766 after a busy golf season in 2024 due to favorable weather conditions.

## Revenues by source – Business-type

## Financial Analysis of the Governmental Funds

The City of Steamboat Springs uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and to budget resources.

**Governmental Funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the assigned and unassigned fund

balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported ending fund balances of \$113,662,854. 60% of this total amount, or \$68,244,931, represents assigned and unassigned fund balance, which is available for spending at the City's discretion. Within assigned fund balance, the City has encumbered \$32,866,955 for spending in 2025. Within unassigned fund balance, the City has designated \$14,141,136 as a fiscal policy stabilization reserve.

The remainder of fund balance is non-spendable, restricted, or committed, and is not available for new spending. Restricted fund balance includes: 1) a TABOR emergency reserve as required by state law of \$3,142,252, 2) \$7,076,153 restricted for capital projects, 3) \$10,905,792 restricted for redevelopment with the Steamboat Springs Redevelopment Authority, 4) \$1,090,356 restricted for Fire and EMS purposes, and 5) \$20,333,160 for community housing.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the assigned and unassigned fund balance of the General Fund was \$23,468,240 and total fund balance was \$27,209,496. As a measure of the General Fund's liquidity, it may be useful to compare both assigned and unassigned fund balance and total fund balance to total fund expenditures including transfers made to other funds. Assigned and unassigned fund balance represents 36% of total General Fund expenditures and transfers, while total fund balance represents 42% of total General Fund expenditures and transfers.

**General Fund - Components of Fund Balance  
December 2024 and 2023**

The fund balance of the City's General Fund decreased by \$3,465,005 during the fiscal year. Although operating revenue exceeded expenses during 2024, the City transferred unrestricted funds out of General Fund reserves to fund major capital projects such as construction of a new city hall, fire station and employee housing facility resulting in a decrease in the General Fund balance.

The City's Capital Projects Fund had a total fund balance of \$49,257,123 at the end of the current fiscal year, representing a decrease of \$3,487,824 from the prior year, mostly due to significant spending and progress on completion of major capital projects such as the fire station, city hall and employee housing.

The City's Accommodations Tax Capital Projects Fund had a total fund balance of \$4,866,927 at the end of the current fiscal year, representing an increase of \$309,580 from the prior year, due to tax collections of about \$2,100,000 and a \$1,800,000 transfer to the Capital Projects Fund to assist in funding Bear River Park in west Steamboat Springs.

The Steamboat Springs Redevelopment Authority (SSRA) had a total fund balance of \$10,905,792 at the end of the current fiscal year, representing a decrease of \$181,577 from the prior year. SSRA fund balance, along with current and future revenue, is earmarked primarily for a large capital project referred to as the Gondola Transit Center. The SSRA is partnering with Steamboat Ski and Resort Corporation to redesign and build a new transit center for the City of Steamboat Springs Transit division and private shuttles to enhance traffic flow and safety near the Steamboat ski area.

The City's Fire and EMS Tax Fund had a total fund balance of \$1,090,356 at the end of the current fiscal year, representing an increase of \$926,489 from the prior year. This fund is used to record a 2-mill property tax and other associated revenue restricted to Fire and EMS operating and capital costs. The associated expenses are recorded in the General Fund and Capital Projects fund. There was \$2,042,648 transferred to the General Fund and Capital Projects Fund for additional personnel and capital purchases related to Fire and EMS operations.

The City's Community Housing Fund had a total fund balance of \$124,315 at the end of the current fiscal year, representing a decrease of \$10,770 from the prior year, mostly due to a community support payment to the Yampa Valley Housing Authority. The primary revenue source for this fund was initially inclusionary zoning and other developer fees for community housing. The ordinance that established these fees was repealed by City Council several years ago and therefore there is little activity in this fund. However, City Council continues to discuss reintroducing the revenue source, and therefore the fund is still considered a major fund.

The City's Short-Term Rental Tax Fund had a total fund balance of \$20,208,845 at the end of the current fiscal year, representing an increase of \$10,988,526. These funds were previously earmarked for a large annexation including a housing development called Brown Ranch, however the annexation was not approved in a special election in 2024. The City Council, Yampa Valley Housing Authority, and the community are developing a plan for next steps for these funds.

**Proprietary Funds.** The City of Steamboat Springs' proprietary funds resemble the government-wide financial statements by listing all assets and liabilities and fully accruing revenues and expenses.

Unrestricted net position of the City's enterprise funds at the end of the current fiscal year was \$21,192,158 and total net position was \$99,923,022 which is an increase of \$3,035,348, compared to the previous year. Net position of the Golf Fund increased by \$394,766. The Haymaker Golf Course had a strong season due to favorable weather conditions and the continued popularity of outdoor recreation. These funds will be utilized for golf course capital projects, facility maintenance, and equipment upgrades. Net position of the Airport Fund increased by \$133,118 during the year primarily due to capital projects that weren't completed in 2024 and are planned for completion in 2025. Net position of the Utility Fund increased by \$2,507,464 because the fund collects tap fee contributions allowing for future investment in capital outlay.

## General Fund Budgetary Highlights

**Original budget compared to final budget.** The City's budgeted revenues increased by \$1,096,324 due to additional grants awarded throughout the year. As a policy, the City does not budget for grant revenue until it is awarded unless it is a grant that is received annually (formula grant). The City's budgeted expenditures increased by \$2,953,443 through the year partially due to projects from the prior year that weren't complete and reappropriated into 2024, but mostly due to anticipating the increase in grant revenues.

**Final budget compared to actual results.** General Fund total revenues were \$903,324 under final budget for the current fiscal year. The significant reasons for the variance were:

- Taxes were \$745,307 under final budget, due primarily to lower visitor numbers than anticipated.
- Intergovernmental revenue was \$578,215 lower than budget because grant revenues are typically budgeted based on total awarded amount as opposed to analyzing the spending and associated revenue by year and this amount is anticipated to be received in 2025.
- Investment income was \$303,351 greater than final budget.

General Fund total operating expenditures were \$6,093,322 under final budget for the current fiscal year primarily due to:

- \$1.3 million is attributed to budgeted funds that were unspent, but obligated to projects that will be completed in 2025. These funds were approved to be supplementally budgeted in 2025.
- Several departments continue to experience difficulties in hiring staff which creates vacancy savings. This was primarily evident for full-time positions in the Police Department and Public Works, and for seasonal staff in Transit and Parks and Recreation.
- In anticipation for lower than budgeted sales tax revenue, City departments were asked to contain their spending in the last quarter of the year to ensure the City didn't overspend. This resulted in expenditure savings over most areas of operations.

## Capital Asset and Debt Administration

**Capital Assets.** The City's governmental and business-type activities had \$283,071,187 invested in capital assets including construction in progress, net of depreciation as of December 31, 2024. The investment in capital assets includes land improvements, road, sidewalk and utility collection line improvements, machinery and equipment purchases, and parks improvements.

Major capital asset events during the year included the following:

- Construction of 1015 Oak Street Fire Station 1 \$19.5 million.
- Rebuilt and placed back in service 3 transit buses \$950,000.
- Purchased and put into service \$1.8 million in fleet equipment and vehicles.
- Currently in process of finishing 115 Oak Street City Hall and Civic Plaza \$15.6 million.
- Investing in undergrounding of utilities along Oak Street \$1.5 million.
- The City recorded \$3.4 million for construction in progress on Wellfield Capacity expansion along with \$5.3 million to expand water storage with West 1 million gallon storage tank.
- Completion of Walton Creek Road and US40 floodplain and sidewalk improvements \$1.5 million.
- Roadway improvement completed in Ski Time Square along with Steamboat Boulevard and Mt Werner Road totaling \$9.6 million.

Additional information on the City of Steamboat Springs capital assets can be found in the notes to the financial statements on pages 48-49 of this report.

**Long-term liabilities** At the end of the current fiscal year the City had \$13,195,000 in certificates of participation outstanding, a \$7,455,000 loan secured by specific revenue sources generated by the Steamboat Springs Redevelopment Authority, and \$5,565,000 in loans outstanding with the Colorado Water Resources and Power Development Authority that are secured by specific revenue sources.

<b>Total</b>	<b>\$ 21,688,801</b>	<b>\$ 23,687,938</b>	<b>\$ 5,628,886</b>	<b>\$ 6,312,572</b>	<b>\$ 27,317,687</b>	<b>\$ 30,000,510</b>

During 2024, the City decreased total debt by \$2,682,823.

On June 1, 2023 Moody's Investors Service upgraded the City's credit rating to Aa1 from Aa2.

The City's Charter does not impose a legal restriction on debt issuance; however, the Taxpayer's Bill of Rights (TABOR) imposes certain restrictions on issuing debt depending upon whether the issuance is backed by the full faith and credit of the City, taxes or backed by enterprise revenues.

Additional information on the City of Steamboat Springs' long-term debt can be found in the notes to the financial statements on pages 51-55 of this report.

**Economic Factors, Conditions, and 2025 Budgets and Rates.** As the City of Steamboat Springs developed the 2025 budget several economic factors and conditions were taken into consideration. The pressures of inflation on expenditure, hiring challenges, and the potential of a recession were all considered when establishing forecasts and budgets.

Sales Tax is the largest revenue source for the City with approximately 67% of the General Fund revenue coming from this source. As the City approached the 2025 budget, it was recognized that tourism would likely be similar or slightly lower than 2023 and 2024, however

given inflation and the fact that sales tax is a function of price, the City budgeted for sales tax to increase by 3% in 2025.

- Sales tax collected in January and February 2025 was less than 1% down from 2024 collections for the same period. This is trending lower than budget, therefore staff is actively monitoring collections and identifying areas of savings to ensure balanced spending with revenue collections. This includes delaying hiring of vacant positions where appropriate.
- The City is implementing Workday software for Human Capital Management, Financial Management and other business processes. This is the largest software implementation the City has undergone and it is scheduled to go live in 2025. In planning for this, additional staffing resources were budgeted for personnel in Finance, Human Resources, and Information Technology departments as part of the 2025 budget.
- After the failed annexation in 2024, the City Council has contracted with a consultant to help facilitate a community solutions process, create meaningful community involvement, strengthen the partnership between the City and Yampa Valley Housing Authority, and create a shared vision for a future housing development west of Steamboat Springs. Affordable and attainable housing continues to be a priority goal for City Council and was taken into consideration in the budgeting process.
- The local growth percentage used in our TABOR reserve calculation, based on property valuation and construction, was 1.21% in 2024 and the Denver-Aurora-Lakewood CPI was 2.27% in 2024. The combined total growth was 3.48%.
- Affordable housing in Steamboat Springs continues to be an issue with the median home price above \$1M in 2025. This contributes to the difficulty in recruiting employees to fill the critical roles across the organization and businesses throughout the town.
- As of December 2024, Routt County unemployment was 3.1% which is lower than the national rate of 4.1% and lower than Colorado's unemployment rate at year-end of 4.6%. The local unemployment rate remains low as we move into 2025, with January coming in at 3.7%. This is reflected in the difficulty of finding employees for many of the City's positions especially for seasonal jobs.

## **Requests for Information**

This financial report is designed to provide a general overview of the City of Steamboat Springs' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Steamboat Springs Finance Department, 115 10<sup>th</sup> Street, Steamboat Springs, CO 80487.

**CITY OF STEAMBOAT SPRINGS  
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF NET POSITION  
DECEMBER 31, 2024**

		Total Governmental Funds
Amounts reported for governmental activities in the statement of net position are different because:		
Total fund balances governmental funds	\$	113,662,854
Long-term notes receivable are not an available resource to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.		3,138,332
Other assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.		451,469
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds (excludes internal service funds).		193,882,825
Internal service funds are used by management to charge the costs of central services and fleet management services to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		13,092,064
The portion of expense related to pensions not shown in current expenditures are deferred outflows of resources and, therefore, are not reported in the funds.		2,013,150
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds (excludes internal service funds).		
Loan payable	(7,455,000)	
Less: Deferred charge on refunding	14,686	
Add: issuance premium	(540,228)	
Certificates of participation	(13,195,000)	
Accrued interest payable	(55,221)	
Leases and subscriptions payable	(498,573)	
Net pension liabilities	(127,463)	
Compensated absences	(2,469,367)	
		(24,326,166)
The portion of income related to pensions not shown in current income are deferred inflows of resources and are not reported in the funds.		(244,325)
Net position of governmental activities	\$	301,670,203

The accompanying notes are an integral part of these financial statements.

**CITY OF STEAMBOAT SPRINGS  
RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2024**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds		\$ 5,079,419
<p>Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.</p>		
Capital outlays, excluding internal service funds	40,210,629	
Depreciation expense, excluding internal service funds	<u>(6,897,112)</u>	33,313,517
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		142,985
Governmental funds report revenues from deferred inflows of resources in prior periods that are available in the current period. However, these inflows are not reported as revenues in the statement of activities.		(26,521)
Governmental funds report loans made as expenditures. However, these outflows are not reported as expenses in the statement of activities.		2,600,000
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to increase net position.		(1,127,485)
Governmental funds report contributions to defined benefit pension plans as expenditures. However, in the statement of activities these expenses do not require the use of current financial resources and are deferred and amortized.		103,208
<p>The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Debt issuance premium amortization	81,551	
Lease and subscription proceeds	(524,999)	
Deferred refunding loss recognition	(17,218)	
Repayment of long-term liability principal	<u>2,442,585</u>	1,981,919
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(100,126)
The net revenue of internal service fund-fleet is reported with governmental activities.		<u>1,707,575</u>
Change in net position of governmental activities		<u><u>\$ 43,674,491</u></u>

The accompanying notes are an integral part of these financial statements.

## ***NOTES SECTION***

The notes to the financial statements are essential to present fairly the financial position and results of operations of the City of Steamboat Springs. The notes are intended to communicate information necessary for a fair presentation at the basic financial statement level that is not readily apparent from, or cannot be included in, the basic financial statements themselves. The notes are an integral part of these financial statements and are intended to be read with them.

(This page left blank intentionally.)

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**DESCRIPTION OF THE GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. Fiduciary activities are reported only in the fund financial statements. Governmental activities, normally supported by taxes, intergovernmental revenues, and nonexchange transactions are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

**A. REPORTING ENTITY**

The City of Steamboat Springs was incorporated in 1900 as a municipal corporation and a statutory town under the constitution and laws of the State of Colorado until 1973 when it became a home rule municipality under authority of the Constitution of the State of Colorado and the Municipal Home Rule Act of 1971. The Home Rule Charter was adopted by the voters of Steamboat Springs on November 6, 1973 and provides for a City Council-Manager form of government with seven elected council members. The accompanying financial statements present the City and its component units, entities for which the City is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize legal separation from the City.

**Blended component unit.** The Steamboat Springs Redevelopment Authority (Authority) serves the ski area base of the City and is governed by a board comprised of the City's elected City Council, therefore the component unit's governing body is substantively the same as the governing body of the primary government. The primary government also has an operational responsibility for the common base area maintenance. The Authority was formed to provide infrastructure improvements within its boundaries. The Authority is presented as a governmental fund and does not issue separate financial statements.

**Discretely presented component unit.** The Steamboat Springs Local Marketing District is responsible for providing assistance in funding airline revenue guarantees and marketing for the City of Steamboat Springs' merchants and ski area. The members of the District's governing board are appointed by the Steamboat Springs City Council. The Council has the ability to remove board members as well. The Steamboat Springs Local Marketing District does not issue separate financial statements.

**B. BASIS OF PRESENTATION – government-wide financial statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from government-wide financial statements.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

As discussed earlier, the City reports one discretely presented component unit. The Steamboat Springs Local Marketing District is shown as a separate column in the government-wide financial statements.

As a general rule the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between the City's utility functions, and other departments of the City. Elimination of these charges would distort the direct costs and program revenues reported.

**C. BASIS OF PRESENTATION – fund financial statements**

The fund financial statements provide information about the City's funds, including its fiduciary fund and blended component unit. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of the fund financial statements is on major governmental and enterprise funds, each displayed in a separate column in the fund financial statements.

The City reports the following major governmental funds:

1. **General Fund** - The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.
2. **Capital Projects Fund** – The Capital Projects Fund is used to account for the financial resources to be used for the acquisition or construction of major capital projects. It is not required that all capitalized assets are accounted for in this fund.
3. **Accommodations Tax Capital Projects Fund** – This Fund is primarily used to account for accommodations tax collections and corresponding expenditures for major capital projects. The total amount of the Accommodations Tax is restricted per the 1986 public accommodations tax ballot question. The 2013 2A Accommodations Tax ballot language further obligates the City of Steamboat Springs to allocate the first \$600,000 of tax revenues for the development of trails, with the next \$60,000 of tax revenues to be split on a 50%-50% basis between (I) marketing of tourist related improvements constructed with this tax revenue and (II) reserves for the Haymaker golf course capital improvements. The City has determined that although some of the expenditures for capital related activities will not become City Capital Assets, that by definition a Capital Projects Fund not a Special Revenue Fund is the appropriate designation of the fund.
4. **Steamboat Springs Redevelopment Authority Fund** – This fund is used to account for all operations of the Steamboat Springs Redevelopment Authority (SSRA), a blended component unit of the City of Steamboat Springs. The Authority was formed to provide infrastructure improvements at the City's ski area base. Tax incremental financing defined in the urban renewal plan adopted by the Authority is made up of municipal sales tax and property tax from all taxing entities is the revenue source for the fund.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

5. **Fire and EMS Tax Fund** – The Fire and EMS Tax Fund accounts for the revenue and spending approved by the qualified electors of the City of Steamboat Springs at the regular municipal election held on November 5, 2019 for the imposition of a property tax at a rate of up to two (2) mills for the purpose of fire and emergency medical services.
  
6. **Community Housing Fund** – The Community Housing Fund accounts for collecting and spending inclusionary zoning fees in lieu of construction, the residential and commercial linkage fees for affordable housing and funds the Yampa Valley Housing Authority’s Down Payment Assistance program and other workforce housing projects.
  
6. **Short-Term Rental Tax Fund** – This fund was created in 2023 to account for Short-Term Rental tax collections. The Short-Term Rental tax was imposed by the City for a period of twenty years, from 2023 to 2042. This revenue is restricted, per the 2022 ballot question, to the purpose of increasing the stock of affordable and attainable housing at locations including, but not limited to, Brown Ranch by providing incentives, contributions, and funding infrastructure associated with affordable and attainable housing, including, without limitation, energy, stormwater, water, wastewater, and multi-modal transportation. A further restriction was added, per the 2023 ballot question, that authorizes the City to enter multiple-fiscal year obligations and to allocate 75% of the City’s Short-Term Rental tax revenues to the Yampa Valley Housing Authority (YVHA) through 2042 contingent on YVHA’s timely completion of affordable and attainable housing units as set forth in the Brown Ranch annexation agreement.

The City reports the following major proprietary funds:

1. **Utility Fund** – The Utility Fund is responsible for water treatment and distribution, and wastewater collection and treatment. This fund is considered an “enterprise” for purposes of the state’s Taxpayer Bill of Rights (TABOR).
  
2. **Airport Fund** – The Airport Fund is responsible for the Steamboat Springs Airport, a general aviation facility.
  
3. **Golf Fund** - The Golf Fund is responsible for the operation and maintenance of the Haymaker Golf Course. This fund is considered an “enterprise” for purposes of the state’s Taxpayer Bill of Rights (TABOR).
  
4. **Internal Service Fund** – The City’s Internal Service Fund accounts for fleet management services provided to other departments of the City on a cost reimbursement basis.

In addition, the City reports the following fund types:

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

1. **Fiduciary Fund** –The school sales tax custodial fund accounts for the collection and distribution of the City's ½ cent sales tax passed through to a private non-profit organization.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

**E. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Taxes, franchise fees, licenses and interest associated with the current fiscal period are all considered susceptible to accrual and have been recognized as revenues of the current fiscal period. Earned investment interest will be recognized as revenue only as it becomes available. Expenditure-driven grants and intergovernmental billings are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or is considered available for this revenue source but may be in excess of 60 days.

The proprietary funds and fiduciary fund are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

**F. BUDGETARY INFORMATION**

Prior to January 1, the City's budget is legally adopted through enactment of a budget ordinance. This ordinance appropriates expenditure levels by fund. This then becomes the level of control upon which expenditures may not legally exceed appropriations. The City Council may, if revenues are in excess of estimates, amend the adopted budget through enactment of a supplemental budget appropriation ordinance. Management may transfer funds between departments as long as the fund appropriation is not exceeded. Transfers between funds would require enactment of a supplemental budget ordinance. Appropriations lapse at year end.

Budgets for the General Fund, Special Revenue Funds and the Capital Projects Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP), except that no expenditure or other financing source is recognized under the budgetary basis of accounting when the City enters into a subscription-based information technology arrangement (SBITA) or lessee lease. Budgets for the Enterprise and Internal Service Funds are adopted on a basis consistent with GAAP except that bond principal payments and capital outlay are budgeted as expenditures and depreciation is not budgeted.

The City uses encumbrance accounting and year-end encumbrances are included in assigned reserves in the ending fund balance. Any outstanding commitment to receive goods or services at year end is authorized by a re-appropriation in the succeeding year's budget ordinance.

**G. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE**

**1. Cash and investments**

The City's cash and cash equivalents include cash on hand, demand deposits, investment pools and short-term investments with an original maturity of three months or less from the date of acquisition. The City's investments are reported at fair value. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**2. Receivables**

All trade and tax receivables are shown net of an allowance for uncollectible items as deemed necessary. Sales tax and utility receivables are considered to be fully collectible and therefore no allowance is reported. Allowances for other trade receivables are determined based upon the age of the account and the type of service rendered.

**3. Inventories and prepaid items**

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories consist of fuel for various departments. The cost of fuel is expensed when purchased rather than when consumed or sold and reported on the balance sheet if significant. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments in both the government-wide and fund financial statements. The consumption method is used to account for these prepayments in the governmental funds.

**4. Capital assets**

Capital assets, which include property, plant, equipment, and infrastructure assets are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 for equipment, \$20,000 for software, and more than \$25,000 for property, plant and infrastructure and an estimated life in excess of two years. Such assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Intangible assets follow the same capitalization policies as tangible assets and are reported in the appropriate capital asset class. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend assets' lives are not capitalized.

Property, plant and equipment is depreciated using the straight-line method over the estimated useful lives as follows:

Land improvements	30-40 years
Buildings and improvements	30-40 years
Public domain infrastructure	30-40 years
Sewer and water transmission and distribution lines	40 years
Furniture and equipment (including right to use leased equipment)	2-20 years

**5. Leases**

Lessee Leases: The City recognizes lease liabilities and intangible right-to-use lease assets in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$5,000 or more for equipment leases, and an initial, individual value of \$25,000 or more property, plant and infrastructure leases.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgements related to leases include how the City determines 1) the discount rate it uses to discount the expected lease payments to present value, 2) lease term, and 3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, as is usually the case, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

Lessor Leases: The City recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgements include how the City determines 1) the discount rate it uses to discount the expected lease receipts to present value, 2) lease term, and 3) lease receipts.

- If specified, the City uses the interest rate identified in the contract as the discount rate. If no interest rate is specified, as is usually the case, the City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**6. Subscription-based information technology arrangements**

The City is an end user of subscription-based information technology arrangements (SBITAs) for the noncancellable right to use various software throughout its operations. The City recognizes SBITA liabilities and intangible right-to-use assets in the government-wide financial statements.

At the commencement of a SBITA, the City initially measures the liability at the present value of payments expected to be made during the SBITA term. Subsequently, the SBITA liability is reduced by the principal portion of payments made. The SBITA asset is initially measured as the initial amount of the SBITA liability, adjusted for payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the SBITA asset is amortized on a straight-line basis over its useful life.

Key estimates and judgements related to leases include how the City determines 1) the discount rate it uses to discount the expected payments to present value, 2) SBITA term, and 3) SBITA payments.

- The City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The SBITA term includes the noncancelable period of the subscription.
- Subscription payments included in the measurement of the liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the SBITA asset and liability if certain changes occur that are expected to significantly affect the amount of the SBITA liability. SBITA assets are reported with other capital assets and SBITA liabilities are reported with long-term liabilities on the statement of net position.

**7. Deferred outflows/inflows of resources**

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. The first is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second represents deferred charges related to defined benefit pension plans; these charges will be amortized according to the benefit terms of the plans. The third is an asset retirement obligation related to the City's Wastewater Treatment Plan.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The government has three items in this category, the first two of which arise only under the current financial resources measurement focus and modified accrual basis of accounting.

Accordingly, the first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from four sources: Accounts Receivable, Special Assessments Receivable, Property Taxes, and Promissory Notes Receivable. These amounts are deferred and recognized as an inflow of resources in the period during which the amounts become available.

The second item, deferred inflows related to leases, is reported in both the governmental funds balance sheet and the government-wide statement of net position.

The third item, which arises only under the economic resources measurement focus and accrual basis of accounting represents deferred inflows of resources related to defined benefit pension plans. This income will be recognized according to the benefit terms of the plans.

**8. Long-term obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the period the debt is issued. The face amount of the debt issued is reported as other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**9. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Fire & Police Pension Association Plans (FPPA) and additions to/deductions from FPPA's fiduciary net position have been determined on the same basis as they are reported by FPPA. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**10. Net Position definition**

The difference between all other elements in a statement of financial position is net position. Net position is displayed in three components: Net investment in capital assets, restricted component of net position consists of restricted assets reduced by liabilities related to those assets, and unrestricted component of net position is the net amount of the assets and liabilities that are not included in the prior two components.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**11. Net Position flow assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted net position is applied.

**12. Fund balance flow assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**13. Fund balance policies**

In the fund financial statements, governmental funds report categories of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Certain categories of fund balance represent tentative management plans that are subject to change. Fund balance classifications in order of hierarchy are:

- *Non-spendable fund balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or it is legally or contractually required to be maintained intact.
- *Restricted fund balance* – The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.
- *Committed fund balance* – The portion of fund balance constrained by formal action of the government's highest level of decision-making authority. The City Council is the government's highest level of decision-making authority for the City that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the constraint may be removed or changed only through similar action of the City Council.
- *Assigned fund balance* – The portion of fund balance set aside for planned or intended purposes. The intended use may be expressed by the City Council or other individuals authorized to assign funds to be used for a specific purpose. Assigned fund balances in special revenue funds will also include any remaining fund balance that is not restricted or committed. This classification is necessary to indicate that those funds are, at a minimum, intended to be used for the purpose of that particular fund.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Unassigned fund balance* – The residual portion of fund balance that does not meet any of the above criteria. The City will only report a positive unassigned fund balance in the General Fund.

The City Council by resolution granted the City Manager, or the City Manager's Designee, authority to designate the assigned fund balance for each fund based on the intended use of such resources. Any fund balance not restricted will be used in the following order: committed, assigned, and then unassigned.

**H. REVENUES AND EXPENDITURES/EXPENSES**

**1. Program Revenues**

Amounts reported as program revenues include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported instead as general revenues.

**2. Property Taxes**

Property taxes to be collected by Routt County are levied on or before December 22 and attach as an enforceable lien on the property the following January 1st. Taxes are payable either in full on April 30 or in two installments due on February 28 and June 15. The Steamboat Springs Redevelopment Authority (Authority), a blended component unit of the City, receives property tax increment funds (TIF) given to the Authority to offset costs incurred for the base area redevelopment. There is no mill levy by the Authority. The Authority receives the property TIF through Routt County and the amount to be collected in 2025 is recorded as a receivable and a deferred inflow of resources at December 31, 2024. At the regular municipal election held on November 5, 2019, the qualified electors of the City of Steamboat Springs authorized and approved the imposition of a property tax at a rate of up to two (2) mills for the purpose of funding fire and emergency medical services. This property tax to be collected in 2025 has been recorded as a receivable and as a deferred inflow of resources in both the funds and the government-wide reporting at December 31, 2024.

**3. Compensated Absences**

It is the City's policy to permit employees to accumulate earned but unused paid time off (PTO) benefits. This amount is accrued in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Employees are limited in the amount of time they are allowed to accrue depending on position and years of service. Upon separation, an employee will be paid for earned but unused PTO at the employee's current rate of pay, excluding overtime or temporary upgrade pay.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**4. Proprietary funds operating and non-operating revenues and expenses**

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

The principal operating revenues of the City's Utility Fund, Airport Fund and Golf Fund are charges to customers for sales and services. The principal operating revenues of the City's internal service fund are charges to other City departments for services. Operating expenses for these same funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**I. IMPLEMENTATION OF NEW GASB STATEMENTS**

The GASB has issued statement no. 101, *Compensated Absences*, which is effective for fiscal years beginning after December 15, 2023. The statement establishes a unified recognition and measurement model to improve estimates for compensated absences and comparability between governments. The adoption of the statement did not have a material impact on the financial statements.

**J. RELATED PARTIES**

The City may from time to time enter into contracts for services with companies whose ownership includes members of City Council. All such contractual arrangements are subject to the City's competitive bidding process.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

<b>NOTE II DETAILED NOTES ON ALL FUNDS</b>
--

**A. CASH & INVESTMENTS**

Cash and investments are reported in the financial statements as follows:

Cash and investments	\$	136,008,299
Restricted cash and investments		3,318,751
Component Unit cash and investments		4,880,316
 Total	 \$	 144,207,366

Cash and investments at December 31, 2024, consisted of the following:

Cash on hand	\$	6,825
Deposits with financial institutions		981,128
Cash held by third party		74,690
Investments		143,144,723
 Total	 \$	 144,207,366

**Deposits**

Colorado Statutes require the City to make deposits only in eligible public depositories as defined by the Public Deposit Protection Act (PDPA) of 1989. The Act requires the eligible depository with public deposits in excess of federal insurance levels to create single institution collateral pools of defined eligible assets. Eligible collateral includes obligations of the United States, the State of Colorado or local Colorado governments and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The market value of the pool must be at least equal to 102% of the uninsured deposits. Because of controls in place as part of the Public Deposit Protection Act of 1989, deposits are adequately secured as if they were collateralized with securities held by the entity or by its agent in the entity's name. Additionally, because deposits covered by PDPA are collateralized by investment pools, the City's deposits are not subject to custodial risk.

The City's deposits are considered to be entirely insured or collateralized with securities held by the City or its agent in the City's name as follows:

FDIC insured deposits (\$250,000 per bank)	\$	329,205
Amounts PDPA collateralized as described above		751,433
 Deposits at December 31, 2024	 \$	 1,080,638

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE II DETAILED NOTES ON ALL FUNDS**

The carrying amount of the City's cash on hand, deposits with financial institutions, and cash held by a third party at December 31, 2024 was \$1,062,643.

**Investments**

The City's investment policy requires that investment activities be in accordance with Colorado State Statutes. City funds shall be managed in a manner that maximizes safety of principal while ensuring that funds are available to meet the operating needs and unanticipated cash demands of the City while earning the highest possible return within the parameters of state and local law. The City manages its interest rate risk, credit risk, and concentration of credit risk for different investment instruments as described below.

**Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's investment portfolio is managed in accordance with investment guidelines which limits exposure to interest rate risk by limiting the maturity date of investment securities to 5 years.

**Credit Risk** - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the City. Credit risk exposure is managed in accordance with Colorado State Statutes. As per Section 24-54-112 of the Colorado Revised Statutes (C.R.S.), the City's assets will be invested using the "Colorado Uniform Prudent Investor Act" found in the provisions of Part 3 of Article 1 of Title 15, C.R.S. The City's assets shall be invested and managed as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances. In satisfying this standard, all fiduciaries shall exercise reasonable care, skill and caution. Investment decisions should be evaluated within the context of the entire portfolio, rather than on an individual investment basis, and as part of an overall investment strategy having risk and return objectives reasonably suited to the City's purpose.

**Custodial Credit Risk** - Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City has no formal policy for custodial credit risk.

**Concentration of Credit Risk** - Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a policy that addresses limitations on the amount that can be invested in any one issuer.

The City's investments include an Allspring Government money market mutual fund account to which operating funds are transferred via a daily sweep, with a balance at December 31, 2024 of \$9,341,347.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE II DETAILED NOTES ON ALL FUNDS**

In addition, the City and its component unit maintain accounts in The Colorado Government Liquid Asset Trust (COLOTRUST). The City's balance in COLOTRUST at December 31, 2024 is \$127,788,891. The Local Marketing District's balance in COLOTRUST at December 31, 2024 is \$4,880,316.

COLOTRUST is an investment vehicle established by state statute for local government entities in Colorado to pool surplus funds for investment purposes and is registered with the State Securities Commissioner. The pool operates similarly to money market funds and each share is equal in value to \$1.00. COLOTRUST measures its investments at fair value in accordance with Paragraph 41 of Statement 79 and Paragraph 11 of Statement 31, and therefore the City's investment in COLOTRUST is not required to be categorized within the fair value hierarchy for purposes of Paragraph 91a(2) of Statement 72. COLOTRUST has a daily redemption frequency period, and a 1-day redemption notice period. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions of each pooled investment. Securities owned by the pools are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the participating governments. COLOTRUST is rated AAAM by S&P Global Ratings.

The City also maintains an account in the Colorado Surplus Asset Fund Trust (CSAFE). The City's balance in CSAFEE at December 31, 2024 is \$1,134,169. CSAFEE is an investment vehicle established by state statute for local governmental entities in Colorado to pool surplus funds for investment purposes and is registered with the State Securities Commission. The pool operates similarly to money market funds and each share of CSAFEE Cash is equal in value to \$1.00. Investments are limited to those allowed by state statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments. CSAFEE Cash meets the criteria in GASB 79 Paragraph 4 and measures all of its investment at amortized cost. There are no redemption restrictions or redemption notice periods. CSAFEE Cash is rated AAAMmf by Fitch Ratings.

**Fair Value of Investments** - The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. These guidelines recognize a three-tiered fair value hierarchy as follows:

- Level 1: Inputs are quoted prices for identical investments in active markets.
- Level 2: Observable inputs other than quoted market prices.
- Level 3: Unobservable inputs.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

<b>NOTE II DETAILED NOTES ON ALL FUNDS</b>
--

For investments categorized as Level 1, prices are determined using quoted prices in active markets for identical securities. For investments categorized as Level 2, prices are determined using other significant observable inputs. Observable inputs are inputs that reflect the assumptions market participants would use by pricing a security and are developed based on market data obtained from sources independent of the reporting entity. These may include quoted market prices for similar assets, quoted prices for identical or similar assets in markets that are not active or other quoted prices that are not observable. For investments categorized as Level 3, prices are determined using inputs that are unobservable. The City had no investments measured at fair value for the year ended December 31, 2024.

**B. RESTRICTED ASSETS**

Of the Cash and Investments listed above, certain assets of the City are classified as restricted assets because their use is completely restricted by the terms of various loan agreements and legal requirements, the restricted assets are as follows:

<b>Steamboat Springs Redevelopment Authority Fund:</b>	
Restricted for Debt Service	\$ <u>1,108,000</u>
<b>Utility Fund:</b>	
Restricted for Operations and Maintenance	\$ 1,250,001
Restricted for Debt Service	<u>960,750</u>
	<u>\$ 2,210,751</u>

**C. RECEIVABLES**

Property taxes from Routt County are not due and payable until after the assessment year has ended. Thus, they are not included in the revenues or net position of the assessment year. They are recorded in the relevant funds as taxes receivable net of an allowance and deferred inflow of resources at December 31, 2024. An allowance for uncollectible property taxes of 0.09% of the SSRA property tax receivable has been determined based on prior actual collections versus assessed amounts. An allowance for uncollectible property taxes of (1.04)% of the Fire/EMS property tax receivable has been determined based on prior actual collections versus assessed amounts.

Accounts Receivable for total outstanding Ambulance billings are recorded net of a 60% allowance for amounts deemed uncollectible.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

**NOTE II DETAILED NOTES ON ALL FUNDS**

In 2007 the City made a loan to the Yampa Valley Housing Authority for the Fish Creek Mobile Home Park. The original amount of the loan was \$954,000. In 2014 the City authorized Resolution No. 2014-15 to amend the loan, commencing in 2019 the interest is 1.5%. The balance of the receivable recorded in the Community Housing Fund at December 31, 2024 was \$538,332. Principal reduction payments are to be paid annually beginning January 2015 until January 2044.

**LEASES RECEIVABLE**

As of 12/31/2024, the City had three active lessor leases. The leases have receipts that range from \$2,850 to \$222,327 and interest rates that range from 2.45% to 4%. As of 12/31/2024, the total combined value of the lease receivable is \$260,841, the total combined value of the short-term lease receivable is \$67,757, and the combined value of the deferred inflow of resources is \$238,206.

--

***Airport Fund Regulated Leases*** - The City has 37 long-term leases that are excluded from the capitalization requirements of GASB 87 due to being regulated by the Federal Aviation Administration (FAA). These are ground leases for airport hangars used to store aircraft, and all of the leases have either 30-year or 35-year terms. The total amount of revenue recognized during the current fiscal year from these agreements is \$80,119. The table below shows expected future minimum payments under these agreements for each of the subsequent five years and in five-year increments thereafter.

Minimum Receipts Expected to Maturity

**F. LONG-TERM LIABILITIES**

**DEBT: CERTIFICATES OF PARTICIPATION (COPS)**

**December 21, 2016 – Certificates of Participation Series 2016A - \$3,750,000**

The Series 2016A Certificates were issued for the purpose of improving downtown infrastructure along Yampa Street and Oak Street. Interest rates vary from 4.0% to 5.0% and mature annually beginning December 1, 2026 through December 1, 2036 in amounts ranging from \$80,000 to \$440,000. Total annual payments vary from \$153,567 to \$467,200 and are serviced by the General Fund. The outstanding principal balance at December 31, 2024 was \$3,750,000.

**December 21, 2016 – Certificates of Participation Series 2016B - \$2,470,000**

The Series 2016B Certificates were issued for the purpose of refunding the City's Series 2007 Certificates in order to reduce total debt service payments by \$1,978,342. The economic gain on the refunding was \$684,761 in net present value savings. Interest rates vary from 1.7% to 3.75% and mature annually through December 1, 2026 in amounts ranging from \$215,000 to \$285,000. Total annual payments vary from \$223,063 to \$304,803 and are serviced by the General Fund. The outstanding principal balance at December 31, 2024 was \$500,000.

**March 29, 2018 – Certificates of Participation Series 2018 - \$5,920,000**

The Series 2018 Certificates were issued for the purpose of constructing the combined law enforcement facility. Interest rates vary from 3.0% to 4.0% and mature annually beginning December 1, 2018 through December 1, 2037 in amounts ranging from \$145,000 to \$420,000. Total annual payments vary from \$291,813 to \$441,000 and are serviced by the General Fund. The outstanding principal balance at December 31, 2024 was \$4,345,000.

**July 12, 2023 – Certificates of Participation Series 2023 - \$5,045,000**

The Series 2023 Certificates were issued for the purpose of constructing the city hall building. Interest rates vary from 4.0% to 5.0% and mature annually beginning December 1, 2023 through December 1, 2042 in amounts ranging from \$155,000 to \$365,000. Total annual payments vary from \$377,700 to \$382,950 and are serviced by the General Fund. The outstanding principal balance at December 31, 2024 was \$4,600,000.

Each of the Certificates of Participation listed above have terms specified in their respective agreements that if on or before the December 31 prior to the beginning of any Fiscal Year of the City, the City fails to budget and appropriate sufficient funds to pay all Base Rentals and all reasonably estimated Additional Rentals, the City will be considered to have terminated the Lease. In the event of termination, the City is required to vacate and surrender the Leased Property by March 1 of any Renewal Term in respect of which an Event of Non-appropriation or an Event of Lease Default has occurred.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE II DETAILED NOTES ON ALL FUNDS**

**DEBT: LOANS**

Loans payable at December 31, 2024 are comprised of the following:

**September 22, 2020 - Tax Increment Revenue Refunding Loan - \$11,080,000**

The Series 2020 Loan was issued for the purpose of refunding the Steamboat Springs Development Authority's outstanding Tax Increment Adjustable Rate Revenue Bonds Series 2010, which were originally issued for the purpose of financing public improvements. The refunding reduced total debt service payments by \$2,042,609. Interest is paid semi-annually at a rate of 1.26%. Principal payments ranging from \$365,000 to \$1,530,000 are paid on December 1 each year through 2029. Total annual payments vary from \$531,366 to \$1,549,278 and are serviced by the Steamboat Springs Redevelopment Authority. Pledged revenues, consisting of property tax revenue, sales tax revenue, and investment earnings thereon, less any collection fee charged by the County and less any expenses of collecting and enforcing the Sales Tax attributable to the Plan Area, are committed to servicing the debt through 2029. The amount of pledged revenue varies year to year. During 2024 pledged revenues totaling \$6,377,174 were available to pay debt service of \$1,547,014 on the Series 2020 Bonds. The outstanding principal balance on the Series 2020 Loan at December 31, 2024 was \$7,455,000.

**June 21, 2011 – Colorado Water Resources and Power Development Authority Loan - \$12,350,000**

The 2011 loan was entered into for various drinking water and wastewater projects including water line additions, water main replacement and additions, reservoir enlargement, water meter upgrades, and wastewater collection main replacements. The Authority issued bonds to fund the loan and the City assumed the issue costs. Interest rates vary from 3% to 5%. Principal payments vary from \$365,000 to \$915,000 semi-annually through August 1, 2031. Total annual payments vary from \$955,913 to \$986,484 and are serviced by the Utility Fund. Pledged revenues, consisting of System Revenues less Operating and Maintenance Expenses, are committed to servicing the debt through 2031. During 2024 pledged net revenues totaling \$1,571,753 were available to pay debt service of \$958,444. The outstanding principal balance at December 31, 2024 was \$5,565,000.

Each of the loans listed above have terms specified in their respective agreements in which an "Event of Default" would declare the principal of all "Bonds then Outstanding" to be due and payable.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE II DETAILED NOTES ON ALL FUNDS**

**LEASES PAYABLE**

As of 12/31/2024, the City had five active leases payable. The leases have payments that range from \$2,260 to \$106,600 and interest rates that range from 2.707% to 3.922%. As of 12/31/2024, the total combined value of the lease liability is \$333,868, and the total combined value of the short-term lease liability is \$313,084. The combined value of the right to use asset, as of 12/31/2024 of \$617,386 with accumulated amortization of \$283,840 is included within the Lease Class activities table found below.

Amount of Lease Assets by Major Classes of Underlying Asset

Asset Class	As of Fiscal Year-end	
	Lease Asset Value	Accumulated Amortization
Equipment	\$ 76,040	\$ 41,639
Buildings	\$ 541,346	\$ 242,201
<b>Total Leases</b>	<b>\$ 617,386</b>	<b>\$ 283,840</b>

<b>NOTE II: DETAILED NOTES ON ALL FUNDS</b>
---

**G. ASSET RETIREMENT OBLIGATIONS**

The City's domestic Wastewater Treatment Plant (WWTP) utilizes an extended aeration activated sludge treatment process that consists of an arrangement of processes, equipment, and structures for treating, neutralizing, stabilizing, or disposing of domestic wastewater and the intermediate byproducts of the treatment process. An extended aeration activated sludge domestic wastewater treatment plant is one type of domestic wastewater treatment works. When a domestic wastewater treatment works is decommissioned, the decommissioning efforts must be completed in a way that ensures protection of waters of the state and the surrounding environment in accordance with appropriate environmental regulations. Biosolids must be completely removed from a decommissioned wastewater treatment works and managed in accordance with federal requirements in 40 CFR 503 and the *Colorado Biosolids Regulations 5 CCR 1002-64*. Waste materials at a decommissioned wastewater treatment works must be properly managed in accordance with *Regulations Pertaining to the Solid Waste Sites and Facilities 6 CCR 1007-2* and the Solid Wastes Disposal Site and Facilities Act, Title 30, Article 20, Part 1, Colorado Revised Statutes (CRS), as amended.

The City's Wastewater Distribution and Collection Manager estimated the asset retirement obligation using a probability weighting method, which measures the liability as the sum of probability-weighted amounts in a range of possible estimated mean amounts. Using this method and based upon experience in decommissioning similar sites, the City's Distribution and Collection Manager believes a reasonable estimate to retire the WWTP in accordance with the aforementioned regulations is \$2,074,979 and that the estimated remaining useful life of the asset is 25 years.

The City Financial Policy requires a Stabilization Reserve equal to 25% of the prior year's General Fund operating expenditures to be held in unassigned fund balance. The reserve is designed to provide the City with budget stabilization during revenue downturns. The funds, if needed for stabilization, would be appropriated by City Council via ordinance. The stabilization reserve balance at December 31, 2024 was \$14,141,136, and this forms part of the general fund's unassigned fund balance.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE III: OTHER INFORMATION**

**A. EMPLOYEE BENEFIT PLANS**

**POLICE RETIREMENT DEFINED CONTRIBUTION PLAN**

The City provides retirement benefits for all of its full-time police officers through a defined contribution plan administered by MissionSquare Retirement. There is not a separate audited financial report for this plan. In the defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. As established by Resolution #82-30 of the City Council, all employees of the City's Police Department not covered by another plan must participate in this plan from the date of hire. The City's contributions for each employee (and interest allocated to the employee's account) are fully vested after five (5) years of continuous service. A portion of City contributions for, and interest forfeited by, employees who leave employment before becoming fully vested are used to reduce the City's current period contribution requirement and to pay expenses of the plan. The City Council has the authority to approve amendments to the plan.

The City's total payroll for the year ended December 31, 2024 was \$30,250,450. The City's contribution was calculated using the covered payroll of \$2,705,792. The City contributed the required amount, net of forfeitures, of \$330,107 (12.2% of covered payroll) and the covered employees contributed the required amount of \$248,933 (9.2% of covered payroll), for a total of \$579,040 (21.4% of covered payroll).

**PAID FIREFIGHTER DEFINED CONTRIBUTION PLAN**

The City provides pension benefits for all of its full-time firefighters through a non-contributory defined contribution plan administered by MissionSquare Retirement. There is not a separate audited financial report for this plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

As established by Ordinance #469 of the City Council, all full-time paid firefighters participate in this plan from the date of hire. The City's contribution for each employee (and interest allocated to the employee's account) is fully vested after 5 years of continuous service. City contributions for, and interest forfeited by, employees who leave employment before becoming fully vested are used to reduce the City's current period contribution requirement and pay expenses of the plan.

The City's total payroll for the year ended December 31, 2024 was \$30,250,450. The City's contribution was calculated using the covered payroll of \$4,289,143 and the City made the required contribution of 4.2% amounting to \$180,144.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE III: OTHER INFORMATION**

**CITY EMPLOYEE DEFINED CONTRIBUTION PLAN**

The City provides pension benefits for all of its full-time employees, except police officers and paid firefighters, through a non-contributory defined contribution plan administered by MissionSquare Retirement. There is not a separate audited financial report for this plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

As established by Ordinance #469 of the City Council, all full-time and continuous part-time employees of the City, except full-time police officers and paid firefighters, participate in this plan from the date of hire. The City's contribution for each employee (and interest allocated to the employee's account) is fully vested after 5 years of continuous service. City contributions for, and interest forfeited by, employees who leave employment before becoming fully vested are used to reduce the City's current period contribution requirement and pay expenses of the plan. The City Council has the authority to approve amendments to the plan.

The City's total payroll for the year ended December 31, 2024 was \$30,250,450. The City's contribution was calculated using the covered payroll of \$18,500,317 and the City made the required contribution of 6% amounting to \$1,110,019.

**DEFINED BENEFIT PENSION PLANS**

The City of Steamboat Springs has two defined benefit pension plans administered by the Fire and Police Pension Association of Colorado (FPPA). The aggregate amount of pension expense for both the plans is \$ 404,233.

**VOLUNTEER FIREFIGHTER'S DEFINED BENEFIT PENSION PLAN**

**PLAN DESCRIPTION**

The City maintains a defined benefit pension plan covering its volunteer firefighters. The Fire & Police Pension Association (FPPA) administers an agent multiple-employer Public Employee Retirement System (PERS). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available annual comprehensive financial report that can be obtained at [www.FPPAco.org](http://www.FPPAco.org). Once in the site, locate the site map at the bottom of the web page and you will find the 'Annual Report' link.

**BENEFITS PROVIDED**

The plan provides retirement, disability and death benefits to plan members and beneficiaries. Benefits for normal retirement, a volunteer member having (20) years of active service may retire on the first day of the month immediately following the member's fiftieth (50th) birthday and receive a pension not to exceed \$715 per month unless state law requires a minimum amount greater than this amount or an actuarial review indicates that a greater amount can be paid. A Member who meets the requirements for a normal retirement pension shall receive a monthly annuity for the remainder of the member's life.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

<b>NOTE III: OTHER INFORMATION</b>
------------------------------------

The pension board may pension any volunteer member early retirement based on having ten (10) years of active service or more and being above the age of fifty (50) years. Such pension being pro-rated in accordance with the number of years of service and the amount of pension being paid for normal retirement explained above. Any member having at least ten (10) years of active service and not having reached the age of fifty (50), may be granted a leave of absence and retain all rights to pension annuity, and on attaining the age of fifty (50), shall be entitled to pension benefits as described herein.

No firefighter transferring from another Volunteer Fire Department in Colorado shall receive retirement benefits from the Pension Fund for service after June 2, 1977 unless they shall have served at least five years for the Department. In the event of the death of a retired Member who, regardless of age, has served the requisite number of years for retirement, and who leaves a surviving spouse, the Board may grant a monthly annuity to such spouse in accordance with applicable Colorado statutes (C.R.S., 31-30-1127), in the amount of fifty percent (50%) of the current pension payment for a retired member if the fund is actuarially sound. If the Member has less than twenty years of active service, the annuity to the surviving spouse shall be prorated based upon the number of years of service. These payments shall remain in effect until the death or remarriage of such spouse.

Disability benefits shall pay a monthly annuity to said firefighter in an amount that is proper and equitable, the financial condition of the funds considered, but not to exceed \$357 per month, for a period of up to but not to exceed, one (1) year.

Death benefits shall pay a monthly annuity to their survivor(s) not to exceed \$357.50 per month for a period of up to, but not to exceed, one (1) year. A one-time funeral benefit of \$1,430 shall be paid to the surviving spouse or family upon the death of any active or retired firefighter. Upon the death of a pensioned firefighter, a monthly annuity of up to fifty (50%) of the current retirement benefit may be paid to the surviving spouse if the Pension Fund is actuarially sound.

**MEMBERS COVERED BY BENEFIT TERMS**

Membership covered by benefit terms at December 31, 2024:

Retirees and Beneficiaries	23
Inactive, Nonretired Members	2
Active Members	-
Total	25

Per resolution of the City Council 2011-29, the plan is closed to new members. A volunteer firefighter who was not a member of the plan as of September 20, 2011, is not entitled to become a member of the plan or receive benefits from the plan.

**CONTRIBUTIONS**

Contributions into the pension fund can come from two sources: contributions directly from the department and contributions from the State based on assessed property values and other formulas. The volunteers serve without receiving any compensation for their services and therefore there is no covered payroll.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

**NOTE III: OTHER INFORMATION**

The volunteers make no contribution to the plan. The contribution by the State of Colorado toward volunteer fire pension funds has been a fixed dollar amount established by the legislature and allocated pro rata to all fire pension funds in the State. The State will provide matching contributions at 90% of City contributions up to a maximum of ½ mill on the assessed valuation of the City. The State contribution for 2024 was \$21,600. The annual contribution from the City for 2024 was \$29,000 and was authorized by adoption of the City’s annual budget.

For 2024, the City’s annual required contribution for FPPA was \$15,896. The required annual contribution was determined as part of the January 1, 2023 actuarial valuation using the entry age actuarial cost method. Actuarially determined contribution rates are calculated as of January 1 of odd numbered years. The contribution rates have a one-year lag, so the actuarial valuation as of January 1, 2023, determines the contribution amounts for 2024 and 2025.

**NET PENSION LIABILITY (NPL)**

The City’s net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2023.

**NPL ACTUARIAL METHODS & ASSUMPTIONS**

The total pension liability in the January 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open*
Remaining Amortization Period	20 years*
Asset Valuation Method	5-Year smoothed fair value
Investment Rate of Return	7.0%
Retirement Age	50% per year of eligibility until 100% at age 65.
Mortality	<p><b>Pre-Retirement:</b> 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality. RP-2014 Mortality Table for Blue Collar Employees, 55% multiplier for off-duty mortality.</p> <p><b>Post-retirement:</b> 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p> <p><b>Disabled:</b> 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p>

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

<b>NOTE III: OTHER INFORMATION</b>
------------------------------------

Projected salary increases	N/A
Cost-of-living adjustments	None

\*Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic nominal rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1%	3.92%
Fixed Income - Rates	10%	5.45%
Fixed Income - Credit	5%	6.90%
Absolute Return	9%	6.49%
Long Short	6%	7.47%
Global Equity	35%	8.93%
Private Markets	34%	10.31%
<b>Total</b>	<b>100%</b>	

**SINGLE DISCOUNT RATE**

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the long-term expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 4.05% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Projected cash flows used in determining the Single Discount Rate are available upon request.

December 31, 2024**

**NOTE III: OTHER INFORMATION**

Regarding the sensitivity of the net pension liability to changes in the Single Discount Rate, the following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.00%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1% Decrease 6.00%	Current Single Discount Rate Assumption 7.00%	1% Increase 8.00%
Net Pension Liability/(Asset)	\$ 254,151	\$ 127,463	\$ 18,429

**PENSION EXPENSE AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS**

For the year ended December 31, 2024, the City recognized pension income of \$9,455. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to the volunteer pension plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Assumption Changes	-	-
Net Difference between projected and actual earnings on pension plan investments	51,697	-
Contributions subsequent to the measurement date	29,000	-
Total	\$ 80,697	\$ -

\$29,000 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended December 31:</b>	
2025	\$ 2,199
2026	17,286
2027	38,887
2028	(6,675)
Total	\$ 51,697

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE III: OTHER INFORMATION**

**PAID FIREFIGHTER'S DEFINED BENEFIT PENSION PLAN**

**PLAN DESCRIPTION**

The City of Steamboat Springs contributes to a cost-sharing multiple-employer defined benefit pension plan administered by the Fire and Police Pension Association of Colorado (FPPA). The plan covers substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978, provided that they are not already covered by a statutorily exempt plan. As of August 5, 2003, the Plan may include clerical and other personnel from fire districts whose services are auxiliary to fire protection. The Plan became effective January 1, 1980. As of January 1, 2023 the Statewide Defined Benefit Plan and the Statewide Hybrid Plan have merged to form the Statewide Retirement Plan (SRP) and the Statewide Defined Benefit Plan becomes the Defined Benefit Component of the Statewide Retirement Plan. This change did not have a material impact on the City's financial statements.

The Plan assets are included in the Fire & Police Members' Benefit Investment Fund. Assets from the Deferred Retirement Option Plan (DROP) and Separate Retirement Account assets from eligible retired members are in the Fire & Police Members' Self-Directed Investment Fund. FPPA issues a publicly available annual comprehensive financial report that can be obtained on FPPA's website at: <http://www.FPPAco.org>.

**BENEFITS PROVIDED**

A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members covered under Statewide Defined Benefit Social Security Component will receive half the benefit when compared to the Statewide Defined Benefit Plan. Benefit adjustments paid to retired members are evaluated annually and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W).

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE III: OTHER INFORMATION**

**CONTRIBUTIONS**

Contribution rates for employers and members may be increased equally by the FPPA Board of Directors upon approval through an election by both the employers and members.

In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2015. Member contribution rates increased 0.5 percent annually through 2022 to a total of 12 percent of pensionable earnings. Employer contributions increase 0.5 percent annually beginning in 2021 through 2030 to a total of 13 percent of pensionable earnings. In 2024, members of the SRP plan and their employers contributed at the rate of 12 percent and 10 percent, respectively, of pensionable earnings for a total contribution rate of 22.0 percent.

Contributions from members and employers of departments reentering the system are established by resolution and approved by the FPPA Board of Directors. The member and employer contribution rates will increase through 2030 as described above for the non-reentering departments. Effective January 1, 2021, reentry departments may submit a resolution to the FPPA Board of Directors to reflect the actual cost of reentry by department. Each reentry department is responsible to remit contributions to the plan in accordance with their most recent FPPA Board of Directors approved resolution.

**PENSION ASSET, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS**

At December 31, 2024, the City reported a liability of \$0 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2023. The proportionate share is defined as the proportionate relationship of one employer to all employers of the plan. The basis for the employer's proportion should be determined consistent with the manner in which contributions to the pension plan are determined. Only employer contributions are used to calculate the proportion (member contributions are not considered). The proportionate share is used to calculate the City's share of collective net pension liability, collective pension expense and collective deferrals. These proportionate share amounts will then be combined with the City's specific deferrals and amortization of deferrals to report net pension liability, pension expense and other required disclosure items. At December 31, 2023, the City's proportion was 0.3558 percent, which was an increase of 0.0193 percent from its proportion measured as of December 31, 2022.

December 31, 2024**

**NOTE III: OTHER INFORMATION**

For the year ended December 31, 2024, the City recognized pension expense of \$229,965. At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of resources	Deferred Inflows of resources
Difference Between Actual and Expected Experience	\$ 677,657	\$ 32,559
Changes in Assumptions	393,068	-
Net Difference between Actual and Projected Earnings	486,496	-
Changes in proportion and differences between City contributions and proportionate share of contributions		211,766
City contributions subsequent to the measurement date	375,233	-
	<u>\$ 1,932,454</u>	<u>\$ 244,325</u>

\$375,233 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended December 31:</b>	
2025	\$ 123,801
2026	224,259
2027	316,629
2028	438,254
2029	90,686
Thereafter	119,267
Total	<u>\$ 1,312,896</u>

**ACTUARIAL ASSUMPTIONS**

The January 1, 2023 actuarial valuation date was used to determine the Actuarially Determined Contributions for the fiscal year ending December 31, 2023. The valuation used the following actuarial assumption and other inputs:

Actuarial Method	Entry Age Normal
Amortization Method	Level % of Payroll, Open
Amortization Period	30 Years
Long-term Investment Rate of Return*	7.0%
Projected Salary Increases	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0.0%
*Includes Inflation at	2.5%

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

**NOTE III: OTHER INFORMATION**

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the ultimate values of the MP-2020 projection scale. The pre-retirement off-duty mortality tables are adjusted to 60% of the MP-2020 mortality tables for active employees. The on-duty mortality rate is 0.00015.

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2022 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2023. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2023 are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
Global Equity	35%	8.33%
Equity Long/Short	6%	7.27%
Private Markets	34%	10.31%
Fixed Income - Rates	10%	5.35%
Fixed Income - Credit	5%	5.89%
Absolute Return	9%	6.39%
Cash	1%	4.32%
<b>Total</b>	<b>100%</b>	

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Statewide Retirement Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

**NOTE III: OTHER INFORMATION**

**DISCOUNT RATE & SENSITIVITY ANALYSIS**

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 3.77% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting single discount rate is 7.00%.

Regarding the sensitivity of the net pension liability/(asset) to changes in the Single Discount Rate, the following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.00%, as well as what the plan's net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1% Decrease 6.00%	Single Discount Rate Assumption 7.00%	1% Increase 8.00%
Proportionate share of the net pension liability/(asset)	\$ 1,995,276	\$ -	\$ -

**PENSION PLAN FIDUCIARY NET POSITION**

Detailed information about the pension plan's fiduciary net position is available in the separately issued FPPA financial report.

FPPA issues a publicly available annual comprehensive financial report that includes financial statements and the required supplementary information for FPPA. That report may be obtained on the FPPA website at: <http://www.fppaco.org>.

**DEFERRED COMPENSATION PLAN**

The City offers a deferred compensation plan in accordance with Internal Revenue Code, Section 457. The plan permits employees to defer a portion of their salary to future years. During 1997 the plan was amended to provide that assets of the Plan are held in trust, with the City serving as trustee, for the exclusive benefit of the Plan participants (employees) and their beneficiaries. Due to this change in the trustee relationship, the City no longer records the activity of the Plan, or records the Plan assets or liabilities.

**CITY OF STEAMBOAT SPRINGS**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE III: OTHER INFORMATION**

**B. RISK MANAGEMENT**

The City is subject to various risks of loss, including theft of, or damage to assets; errors and omissions; and natural disasters for which the City carries insurance. A liability is reported when a loss has been incurred and the amount of the loss can be reasonably estimated.

A Colorado statute provides municipalities with immunity from liability in excess of \$424,000 for any injury to one person in any single occurrence. \$1,195,000 for any injury to two or more persons in any single occurrence; except that, in such instance, no person may recover in excess of \$424,000.

The City participates in the Colorado Intergovernmental Risk Sharing Agency (CIRSA) for property, liability and worker' compensation coverage. CIRSA was formed by intergovernmental agreement by member municipalities pursuant to the provisions of 24-10-115.5, 29-1-201 et seq., 29-13-102, 8-44-101(1)(c) and (3), and 8-44-204, C.R.S., as amended, and Colorado Constitution, Article XIV, Section 18(2).

The purposes of CIRSA are to provide members the coverage authorized by law, through joint self-insurance, insurance, reinsurance, or any combination thereof, to provide claims services related to such coverage, and to provide risk management and loss control services to assist members in preventing and reducing losses and injuries. The deductible amounts paid by the City for each incident in 2024 are: \$50,000 General Liability, \$50,000 Public Officials Errors and Omissions Liability, \$50,000 Law Enforcement Liability, \$50,000 Auto Liability, \$50,000 Auto Physical Damage and \$50,000 Property.

It is the intent of the members of CIRSA to create an entity in perpetuity, which will administer and use funds contributed by the members to defend and indemnify, in accordance with the by-laws, any member of CIRSA against stated liability or loss, to the limit of the financial resources of CIRSA available to pay such liability or loss. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverages at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members.

A seven-member board of directors, elected by the members of CIRSA, is responsible for budgeting and financing under the existing policies and by-laws of CIRSA. Amendments to the by-laws require a 2/3 vote of the members present at a meeting. The City does not have the ability to significantly influence operations. CIRSA issues separate financial statement information that can be obtained at [www.CIRSA.org](http://www.CIRSA.org).

**MEDICAL AND DENTAL COVERAGE**

Medical and dental coverage for employees is provided by UMR and Delta Dental. The City has a partially self-insured medical plan with the maximum liability of the City per employee per year at \$150,000. The City's total maximum liability per year is based on the number of employees participating in the plan. The health insurance liability of \$465,649 reported in the General Fund at December 31, 2024 includes an estimated amount for medical and dental claims that have been incurred but not yet reported (IBNRs). The estimate is based on an average of three years past experience of claims paid in January and February expressed as a percentage of total paid claims in the later year.

**CITY OF STEAMBOAT SPRINGS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2024**

<b>NOTE III: OTHER INFORMATION</b>
------------------------------------

Changes in the balance of claims liabilities during the past two years are as follows:

	Health Insurance
Liability - December 31, 2022	\$ 599,804
Claims incurred and changes in estimates	3,342,321
Claims payments	(3,574,912)
Liability - December 31, 2023	367,213
Claims incurred and changes in estimates	4,608,639
Claims payments	(4,510,203)
Liability - December 31, 2024	\$ 465,649

**C. COMMITMENTS AND CONTINGENCIES**

The City receives funding from the federal government for various programs and projects. These funds are subject to review and audit by the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. City management estimates that such amounts, if any, will be immaterial.

The City is committed under the terms of various purchase, engineering and construction contracts in the amount of \$12,624,132 at December 31, 2024. These contracts are anticipated to be completed in 2025.

The City is a defendant in several lawsuits. Although the outcome of these lawsuits is not determinable, it is the opinion of the City's legal counsel that the costs to the City will not be substantial.

**D. TAXPAYER BILL OF RIGHTS (TABOR)**

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including increasing revenues, spending abilities, and other specific requirements of state and local governments. On November 4, 1997, in the General Municipal Election, voters approved a measure to permit the City of Steamboat Springs to "collect, retain and expend the full proceeds of the City's sales and use tax, accommodations tax, non-federal grants and all other revenues, notwithstanding any state restriction on fiscal year spending, including without limitation the restrictions of Article X, Section 20 of the Colorado Constitution, from the 1997 fiscal year and thereafter".

**E. EMERGENCY RESERVE**

On November 3, 1992 Amendment 1, the Taxpayer Bill of rights (TABOR) was approved by Colorado taxpayers. As part of the requirements of this amendment, the City has calculated its December 31, 2024 emergency reserve to be \$3,142,252.

<b>NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</b>
---

**BUDGETARY INFORMATION**

Prior to January 1, the City's budget is legally adopted through enactment of a budget ordinance. This ordinance appropriates expenditure levels by fund. This then becomes the level of control upon which expenditures may not legally exceed appropriations. The City Council may, if revenues are in excess of estimates, amend the adopted budget through enactment of a supplemental budget appropriation ordinance. Management may transfer budgeted amounts between departments within a fund as long as the total fund appropriation is not exceeded. Transfers between funds would require enactment of a supplemental budget ordinance. Appropriations lapse at year end.

Budgets for the General Fund, Special Revenue Funds and the Capital Projects Fund are adopted on a basis consistent with US GAAP. Budgets for the Enterprise and Internal Service Funds are adopted on a basis consistent with US GAAP except that bond principal payments and capital outlay are budgeted as expenditures and depreciation is not budgeted.

The City uses encumbrance accounting and year-end encumbrances are included in assigned reserves in the ending fund balance. Any outstanding commitment to receive goods or services at year end is authorized by a re-appropriation in the succeeding year's budget ordinance.

<b>NOTE II: OTHER INFORMATION</b>
-----------------------------------

**PENSION CONTRIBUTION INFORMATION**

**Valuation Date**

Actuarially determined contribution rates are calculated as of January 1 of odd numbered years. The contribution rates have a one-year lag, so the actuarial valuation as of January 1, 2023 determines the contribution amounts for 2024 and 2025.

**VOLUNTEER FIREFIGHTER'S DEFINED BENEFIT PENSION PLAN**

**Methods and Assumptions Used to Determine Contribution Rates for Fiscal Year ending December 31, 2023:**

Investment Rate of Return	7.0%
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open*
Remaining Amortization Period	20 years*
Asset Valuation Method	5-Year smoothed fair value
Retirement Age	50% per year of eligibility until 100% at age 65.

<b>NOTE II: OTHER INFORMATION</b>
-----------------------------------

Mortality	<p><b>Pre-Retirement:</b> 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality.</p> <p><b>Post-retirement:</b> 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p> <p><b>Disabled:</b> 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p>
Projected salary increases	N/A
Cost-of-living adjustments	None

\*Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

**PAID FIREFIGHTER’S DEFINED BENEFIT PENSION PLAN**

**Methods and Assumptions Used to Determine Contribution Rates for Fiscal Year ending December 31, 2023:**

Actuarial Method	Entry Age Normal
Amortization Method	Level % of Payroll, Open
Amortization Period	30 Years
Long-term Investment Rate of Return*	7.0%
Projected Salary Increases	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0.0%
*Includes Inflation at	2.5%

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables for males and females, amount-weighted, and then projected using the ultimate values of the MP-2020 projection scale for all years. The pre-retirement mortality assumption uses the Pub-2010 Safety Healthy Employee Annuitant Mortality Tables for males and females, amount-weighted, and then projected with the MP-2020 Ultimate projection scale. The pre-retirement non-duty mortality tables are adjusted to 60% multiplier. The on-duty mortality rate is 0.00015.

For determining the actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the Pub-2010 Safety Healthy Annuitant Mortality Tables projected with the

ultimate values of the MP-2020 projection scale. The pre-retirement off-duty mortality tables are adjusted to 60% of the MP-2020 mortality tables for active employees. The on-duty mortality rate is 0.00015.

This part of the City of Steamboat Springs Annual Comprehensive Financial Report presents detailed information to facilitate the understanding of this year's financial statements, note disclosures, and supplementary information. The independent auditor has not audited this information.

<b><u>Contents</u></b>	<b><u>Page</u></b>
<b>Financial Trends:</b>	105
These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in historical perspective.	
<b>Revenue Capacity:</b>	109
These tables contain information that may assist the reader in assessing the viability of the City's most significant "own-source" revenue source, which is sales tax.	
<b>Debt Capacity:</b>	112
These tables present information that may assist the reader in analyzing the affordability of the City's current level of outstanding debt, and the City's ability to issue additional debt in the future.	
<b>Demographics and Economic Information:</b>	116
These tables offer economic and demographic indicators that are commonly used for financial analysis and may assist the reader in understanding the City's present and ongoing financial status.	
<b>Operating Information:</b>	118
These tables contain service and infrastructure indicators that may assist the reader in understanding how the information in these financial statements relates to the City's services and activities performed.	

Sources: Unless otherwise noted, the information in these tables is derived from the ACFR's for the relevant years.

**Notes:** Details regarding the City's outstanding debt can be found in the notes to the financial statements.

(1) Personal income is for Routt County. This information is not readily available for the City of Steamboat Springs. See the Demographic and Economic Statistics schedule for personal income data.

(2) Per capita amounts are for the City of Steamboat Springs. See the Demographics and Economic Statistics schedule for population data.

(3) 2020 Percent of Personal Income and Per Capita are not yet available.

(4) The City refunded from Bonds to a Loan in 2020

(5) Because there has been no Outstanding General Obligation Debt for the 10 years being presented, the ratio of General Bonded Debt to Taxable Retail Sales is 0% for the 10 years of data presented

**CITY OF STEAMBOAT SPRINGS**  
**COMPUTATION OF DIRECT AND OVERLAPPING DEBT** <sup>1</sup>  
**December 31, 2024**  
*(unaudited)*

<u>Jurisdiction</u>	<u>Debt Outstanding</u>	<u>Estimated Percent Applicable to City of Steamboat</u>	<u>Estimated Amount Applicable to City of Steamboat</u>
Steamboat Springs School District RE-2	\$ 102,717,571	73.6%	\$ 75,587,002
Routt County	2,353,174	63.2%	<u>1,486,943</u>
<b>Subtotal, overlapping debt</b>			77,073,945
<b>City governmental activities direct debt</b>			<u>21,688,801</u>
<b>Total direct and overlapping debt</b>			<u><u>\$ 98,762,746</u></u>

<sup>1</sup> Computation of overlapping debt includes only the three major governmental units and excludes several special districts that partially overlap the City.

**Sources:** Steamboat Springs School District RE-2 and Routt County.

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those major overlapping governments in Steamboat Springs using assessed property values. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden should be taken into account.

**Notes:** Details regarding the City's outstanding debt can be found in the notes to the financial statements.

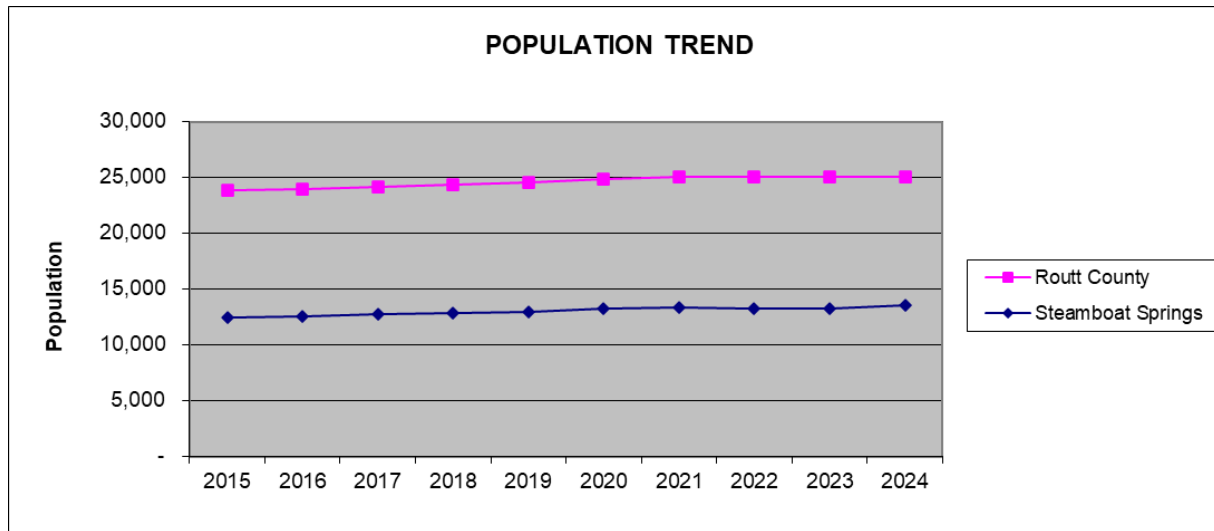

(1) Utility Revenues have been restated in 2024 to more closely align with the definition of revenues for the rate maintenance covenant for this loan.

(2) 2024 operating expense includes a non-recurring cost of \$3,459,419 for the addition of corrosion control treatment at the Fish Creek Filtration Plant, as required by Colorado Department of Public Health and Environment. This outlay was not capitalized because the City does not own the Plant, but is obligated to pay a proportionate share of the cost to the Plant owner, Mount Werner Water and Sanitation District, based on the City's water usage from the Plant.

(3) The rate maintenance covenant for this loan requires a minimum coverage ratio of 1.1.

**Notes:**

<sup>1</sup> Total labor force for Steamboat Springs is unavailable. Since most of the largest employers in Routt County are in Steamboat Springs, Routt County's labor force is used to calculate this percentage.

<sup>2</sup> Most employers have seasonal variation in their number of employees; therefore, the annual average, including seasonal employees, is reported. Historical data may be unavailable due business changes.
